PREFACE

'BIBLIOGRAPHY OF TENBY

'We therefore determined upon proceeding thro’ the deficient & dangerous road to Tenby about 16 miles. For the first half mile I did not think it possible the Horses could have kept their legs, or that the wheels tho’ strong could have stood the jolts amongst the Rocks at one time I thought all was over, but after that our chief Danger seemed passed, & we proceeded an incredibly fatiguing, Hilly & uninteresting journey to Tenby, where we did not arrive till 11 at night, have been incessantly toiling 7 hours to accomplish 16 miles, during which Mr C & myself from necessity were obliged to walk near half the way. We however reached the Hotel kept by Shaw, at eleven at night, after all the Company were in bed, but luckily for us the Hotel was not full & we soon forgot the fatigues of our journey upon the waiters producing a Dish of the finest Prawns we had ever tasted.

(Thomas Gery Cullum’s 'Diary of a Tour in South Wales’, 1811)

'Alas, “what a change was here, my countrymen!” What a revolution a few years had wrought in the social life of Tenby, despite the absence of that great civiliser the “iron road”. Progress had been very busy, it was quite evident, for here I stood in one of a row – one of several rows – of real lodging houses, and a real lodging house keeper, such as is only to be found in large cities and fashionable watering-places, stood by my side talking of "little extras" and other of the minor accessories to stylish lodgings. . . Who could mistake these signs of gentlemen being literally "taken in" here?"

(Freeman, William, My Summer Holiday; being a tourist’s jottings about Tenby, 1863)

197-199  Newspaper cutting from ? Tenby Observer, c. 1899, re the recent royal visit by the Duchess of York to open the completed new pier extension, a charge by council members against F. B. Mason.

(Mason was the proprietor of the Tenby Observer (and the man who obtained the right for reporters to be present at council meetings in Britain) and this matter refers to the charge by the corporation against his attempt to 'go for' a member of the Town Corporation and 'wreck the bloody town' by forwarding to the London papers an announcement, that was distributed about the streets, of the proposed opening, calling the Royal occasion a 'declaration of completion' not 'opening' and that the Corporation had removed the 1897 brass plate of the opening of the Tenby pier, 'for painting' but in reality in an attempt to 'lead the Royal couple to believe they were opening the pier for the first time.' Mason refers to members of the corporation as the "gang ... who supports a scheme for spending hundreds of pounds and getting nothing in value ... that debauch the town ... who started upon a landing stage to cost £1400, and end by spending £10,000 on an improperly constructed pier" Cuttings are of heated council meetings re this matter, indicating that the corporation felt this was a damaging incident to the town and that 'the venom in that paper (Tenby Observer) was so strong that it nearly stopped the Royal Visit.' Mr Laws, high sheriff of Pembrokeshire, went personally to London to correct the statement sent by Mason and also 'neutralized or discounted another invention of the enemy as to a bogus meeting of ratepayers to protest against the expenditure of public money' and felt that Mason and his paper 'were reckless for the good of the town'. In the event the pier extension was opened by the Duchess of York and the Duke of Connaught, due to the illness of the Duke of York. Cuttings refer to numerous articles in the Tenby Observer and County News re. this matter).

Corporation has apparently refused the terms offered by the contractors to build the new landing stage, and until it is built the boatmen 'will be ruined, as people will not use the boats'.

379  Letter, dated July 1920, to from J. L Thomas, one of the boatmen who 'land and embark a great quantity of visitors from the Victoria Pier', complaining about the dangerous state of the steps, and as charges have increased considerably some consideration is due to the boats landing there and to the visitors.
