The “Beneficiary” is the person who will be the recipient of funds or other property under a will, trust, insurance policy, etc. if something were to happen to you.

- You can have more than 1 beneficiary but will need to ensure that the “Beneficiary %” adds up to 100.

Technical issues

Q - I've updated information on my personal information, the system asks if I want to "generate a personal work schedule now". What do I do?

The error message should look like this:

Confirm

Do you want to generate a personal work schedule now?

Yes No

Unfortunately, this is something that only HR can do. If this has not been generated, the system will refuse to save any of the information that you have updated.

To generate a work schedule, please send an e-mail to hr@aber.ac.uk to say that your personal work schedule has not been generated. Once this has been amended, a member of the Employee Service Team will reply to your message and you should be able to amend and save you changes.

Q - I am updating my details and my availability but the system will not allow me to save. What do I do?

If you are unable to save, please take a screenshot of the error message that you receive (as shown below) with an explanation of what you were trying to achieve and send it in an e-mail to hr@aber.ac.uk.

Subject: Technical issue: Unable to update summer availability in Aber People

Good afternoon,

I am trying to enter 'YES' in the Summer Cleaning Operative section under the Availability tab at Aber People website.

I have tried it many times but it won't allow me, instead there's an error message which says: "

Errors:2

! Please correct the following:

- Your changes were not saved. Please correct the errors and try again.
- **Swift:** The Swift identifier is not valid.

I have attached a video recording on how it happened.

How do i fix this issue?

Thank you,

Once this has been received, our Pobl Aber People technical team will be able to look in to the problem, correct any technical faults and advise you further (as shown below).

Dear [REDACTED]

Thank you for your e-mail.

We are unsure why this is happening. As the error occurs on the "Payment Information" tab, I have forwarded the error to the Payroll team in the hope that they are able to correct this.

In the meantime, I have amended your "Availability" tab in the background to include the yes in the Summer Cleaning Operative field.

Hope this helps,
