

Why study Physics at Aberystwyth?

Reasons to choose Aberystwyth:

- A friendly Department of enthusiastic and approachable staff who undertake world-leading research in Physics and Astronomy
- Three-year BSc and four-year MPhys schemes, accredited by the Institute of Physics
- Scholarships worth up to £1,700 per year
- Course elements designed to cultivate problem-solving and presentation skills, and enhance employability
- Opportunities for a year in employment and study abroad, including specialist courses at UNIS in the Arctic.
- A happy and productive learning environment, which includes recently refurbished teaching laboratories and study areas
- Being part of a student community in one of the most beautiful parts of the country, with easy access to excellent cultural and sporting facilities
- Guaranteed accommodation for all first-year students
- 90% of our graduates in employment or further study 6 months after graduation
- 87% of our graduates were satisfied with their experience.
