

Highlights of 22/23 for the REF & Research Monitoring Team

Developing a Culture of Research Excellence

480%

INCREASE IN IMPACT & INNOVATION FUNDING

Demonstrating the recovery from COVID. More researchers sought, and received support, to further their impact & innovation ambitions

ACHIEVING RESEARCH EXCELLENCE & IMPACT

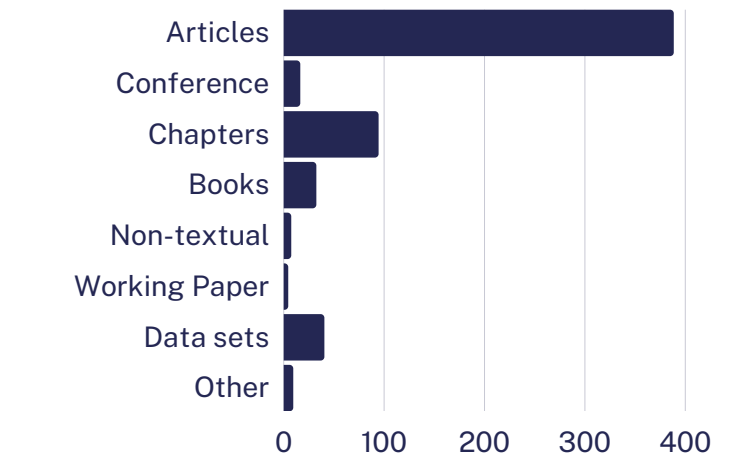

We trained over 100 individuals in Impact development

The Research Matters: Impact Report was published in collaboration with the RBI Communications team, promoting our applied research strengths

150 Research and Innovation stories raised awareness of our sustained impact on society for the University's 150th anniversary year.

We reviewed and revised the Impact Toolkit, and improved the Impact and Innovation Fund awarding criteria.

MANAGING RESEARCH OUTPUTS & DATASETS

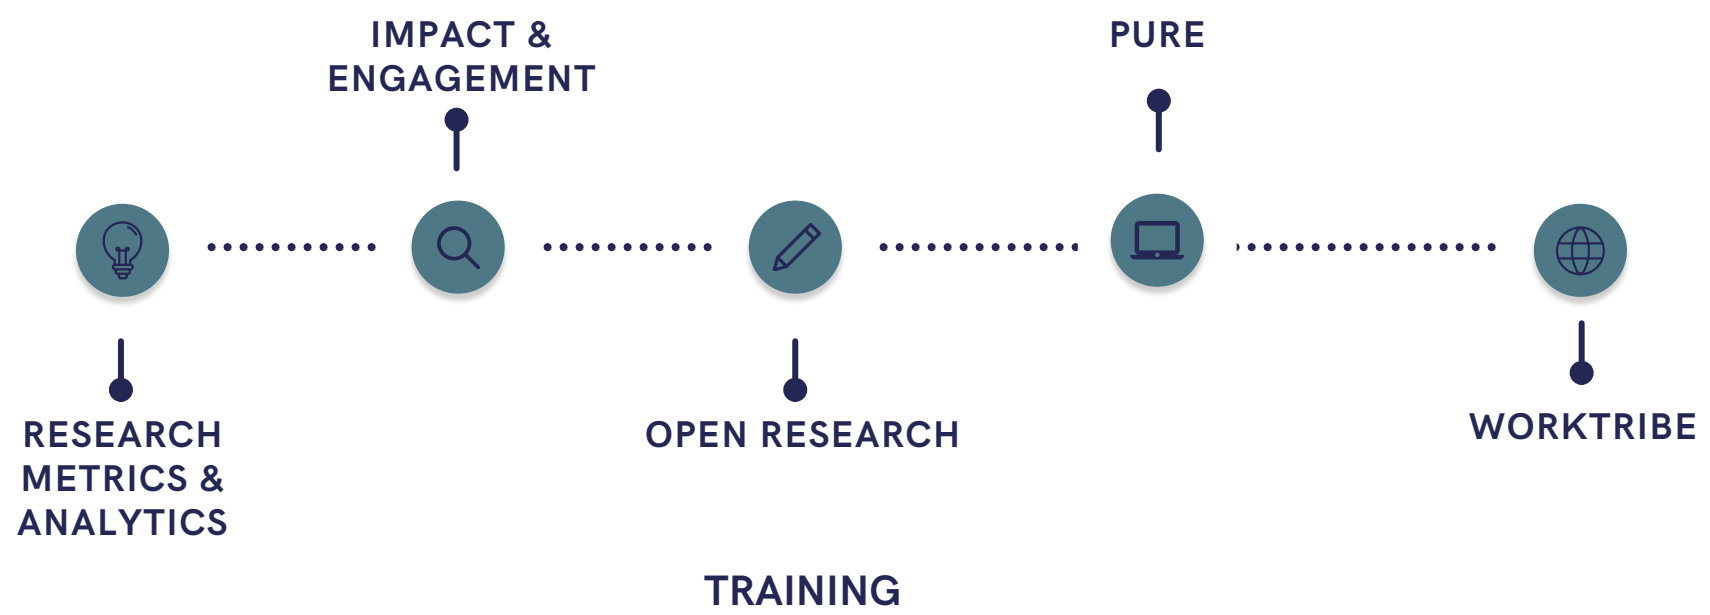

80% of our deposited research outputs were made freely available to the public via Open Access publishing and deposit. This is in line with the UK's capability, and well above the global average of 30%.

LEADING DIGITAL TRANSFORMATION

We revitalised the University Research Portal - to better connect our researchers & collaborators.

We project managed and led the introduction of the new Research Management system - *Worktribe*- and co-ordinated the integrations with other RBI systems.

This year's training aims: to improve Grant capture, Funder compliance, and Leadership across the Research and Student community.
