Section 1.2 - Aggregate fee levels

Aberystwyth will charge the maximum regulated fee level for Full-time Home Undergraduate and Integrated Masters students covered by this plan.

The maximum fee is governed by the Welsh Government. For 2026/27 this will be £9,790. Any increase in the FT Home UG and Integrated Masters fee for 2027/28 and future years of the course will be tied to the maximum fee rise, to be set by Welsh Government. Aggregate fees for the whole duration of the course will depend on the length of the programme (most of our UG programmes are three or four years long), and whether or not the programme includes a Study Year Abroad (currently charged at 15% of the maximum regulated fee) or a Year in Industry/professional practice (currently charged at 20% of the maximum regulated fee), and whether there are inflation-linked increases as outlined above. These can be calculated as follows:

The annual full-time tuition fee rate x the expected number of years taken for the programme = total tuition fees for the programme.

Variations to this will occur when a course includes a study year abroad or a Year in Industry/Professional practice.

For programmes including a year abroad:

The annual full-time tuition fee rate x the expected number of years taken for the programme + 15% of the full-time annual full-time tuition fee rate = total tuition fees for the programme.

For programmes including a year in industry/professional practice:

The annual full-time tuition fee rate x the expected number of years taken for the programme + 20% of the full-time annual full-time tuition fee rate = total tuition fees for the programme.

Information about our fees can be found at [Fees and Finance : Study With Us , Aberystwyth University](#)

Applicants receive information from us in a variety of forms, mainly email & post. Specific information relating to fees is included in the offer letters & Successful Applicant Packs, as well as within a series of applicant emails.
