Introduction

Studying at university can be a transformative experience as you deepen your understanding of your chosen subject, make new discoveries and meet friends for life. For many students, it's also a time of learning to live independently and managing budgets.

At Aberystwyth, we understand the financial implications of higher education. Thanks to the generous support of our alumni and friends, we have been able to offer scholarships for over 125 years and we remain as committed as ever to supporting our students. That's why we've put together a generous package of awards which can help you with day to day living costs.

We don't restrict the number of awards you can receive - providing you meet the eligibility criteria, you can hold multiple awards. That

means you can combine a variety of awards to make your financial package more valuable.

We have a range of different scholarships and bursaries to cover all needs - and the good news is that, unlike a student loan, you don't have to pay this money back. There are academic excellence awards, bursaries to assist students from disadvantaged backgrounds, awards for sporting and musical ability, and incentives to study through the medium of Welsh.

Find out whether you could benefit from one or more of our awards. Read through the brochure for more information and get in touch if you have any questions.

Entrance Examinations: Scholarships and Merit Awards

What are the Entrance Examinations?

Entrance Scholarships and Merit Awards are available to applicants studying any degree scheme at Aberystwyth. You will be required to sit **TWO** online exams from the choice of subjects we offer. Each exam lasts for an hour and a half. The exams are set and marked by our academic departments, so they don't follow any particular syllabus, but they should be a similar standard to A level exams.

1. Faculty Scholarships – £2,000 a year

We have 20 Faculty Scholarships available, which are worth £2,000 a year, as well as guaranteed accommodation in a University property for the duration of the course*. See also no.4 below. Our academic faculties allocate these awards based on excellent performance in the Entrance Examinations.

2. University Scholarships – £1,000 a year

We have 50 University Scholarships to award to the candidates scoring the highest aggregate marks of both examination papers. Successful candidates receive £1,000 for each year of their course. University Scholarship holders also receive guaranteed accommodation in a University property throughout the length of their course*. See also no.4 below.

3. Merit Awards – £1,000 in the first year

We offer approximately 250 Merit Awards each year to students who do well in the Entrance Examinations but narrowly miss out on attaining a Scholarship. Merit Award holders receive £1,000 during the first year of their course. See also no.4 below.

4. Unconditional offers

Strong performance in the Entrance Examinations can result in the University confirming your place without further conditions, resulting in an unconditional UCAS offer.

Candidates who do not receive an award may be given an unconditional offer on the basis of their strong performance in the Entrance Examinations.

* In order to secure your guaranteed place in Residence, you must apply for accommodation for the following academic year within dates advertised by the Accommodation Office for returning students.

Examination Subjects

Entrance Examinations are online exams which must be taken in **TWO** of the following subjects. Unless otherwise indicated, the scope of the examination is similar to that of A levels, but does not follow any particular syllabus. It's important to ensure that the subjects you choose are relevant to the degree scheme you have applied for.

My teacher told me about the Entrance Examinations and my family were very proud when I received an award. I wanted to come to Aberystwyth anyway but it made me feel more secure and excited about my choice. I'm using the money for fieldtrips and academic books, so it's been a big help. My advice if you're thinking of applying would be that you may as well - believe in your abilities and it will increase your confidence - as well as looking good on your CV.

Payment of Awards

Payments will be made direct to you via BACS in two equal instalments for each eligible year – the first payment will be in early December, and the second payment will be in early March. Merit Award payments are made during the first year only.

Information for Schools and Colleges

Information about the exam arrangements and what is required of Exams Officers can be found on our website:

www.aber.ac.uk/scholarships/schools

All instructions and materials for the examinations will be forwarded to the nominated Examinations Officer approximately one week before the exams.

There is no charge associated with sitting the Entrance Examinations, but the University is unable to contribute to any invigilation or room booking costs which may be incurred. Normal exam arrangements apply.

Benefactors

The provision of our Entrance Scholarships has been made possible by generous donations from a number of benefactors over the years. It is not necessary to apply for a specific Scholarship – if your exam results are sufficiently high we will award a suitable Scholarship to you. However, you should let us know if you are the son of a Nonconformist Minister and therefore eligible for consideration for the David Morgan Thomas of Caterham Memorial Scholarship.

Faculty Entrance Scholarship
Crowthorne, Berkshire

I found that the scholarship and bursary provision at Aberystwyth was much better than the other universities I was looking at. The main attraction of the Entrance Exams for me was the financial support and guarantee of 3 years in student accommodation. It was easy to apply and I did some of the past papers which are online for practice. I'm using the money to help towards my day to day living costs. Receiving the Scholarship has improved my confidence and may help future employment prospects, so it was very worthwhile.

I didn't even have to apply for the Scholarship, I just received a letter telling me I had been awarded it based on my BTEC results. It felt amazing that my achievements had been recognised and rewarded. The money has given me extra security and I'm keeping it to one side for when I need it.

Receiving the Music Scholarship has been an incredible experience for me. I've had the opportunity to play a large number of musical pieces by a variety of composers. I have also developed my skills in reading and playing music as I have grown in confidence.

The Music Centre provides a wide range of musical groups, with something suitable for everybody. 2. Each Scholarship and Bursary has its own terms and conditions, which are available at www.aber.ac.uk/scholarships
3. Students deferring their entry will be entitled to receive Scholarships/Bursaries at the level publicised for the year of application (rather than the year of entry in the case of deferred applications).
4. Awards are only payable to students studying for a full degree at Aberystwyth (not transferring into years 2 or 3 of the course).
5. Payments will continue for the tenure of the award subject to continued eligibility (payments are not made during repeat years).
6. Awards are paid whilst students are registered as full-time and full fee-paying. Payments will not be made during years abroad, years in employment, sandwich years etc.
7. Most payments are made twice annually direct into students' bank accounts. It is the award holders' responsibility to provide valid bank details when requested to do so. Failure to provide bank details by the specified date will result in payments being with-held. Where bank details have not been provided by the specified date, the award holder will not be entitled to receive that year's payment. Subsequent years' payments may continue if the award holder provides their bank details by the specified date in subsequent years.
8. Payments for students who temporarily withdraw will resume from the start of the next full term in which they recommence their studies (any remaining payment from the term in which they withdrew will not be repaid).
9. Please note that if you become indebted to the University, Scholarship and Bursary payments will be withheld and set against any outstanding debt.
10. If a student permanently withdraws from their studies before 1st December, the entire first instalment of any award will be reclaimed by the Finance Department. If a student permanently withdraws from their studies between 1st December and 2nd March, the entire second instalment of any award will be reclaimed by the Finance Department. Failure to repay any award in such an instance could result in a referral to the University's debt collection agency.
11. The information contained in this brochure is only applicable to applicants who will undertake their studies in Aberystwyth, and does not apply to students studying franchised or validated programmes delivered by our partners.
