

AGRICULTURE AND THE COUNTRYSIDE

Time allowed: 1.5 hours (90 minutes)

Answer TWO questions

-
1. Discuss strategies that can be undertaken on farms to increase wildlife biodiversity.
 2. Is the UK beef and lamb grading systems fit for purpose?
 3. Discuss the types and effects lameness has in either sheep or cattle
 4. A suckler beef farmer has recently bought 100 heifer calves from multiple farms across the UK. What should this farmer do to minimise the health risks these new animals present to the rest of the herd.
