

## **HUMAN GEOGRAPHY**

Time allowed: 1.5 hours (90 minutes)

**TWO questions should be attempted**

---

1. To what extent can geographic analysis help explain inequalities in Britain's housing provision and what solutions can it offer?
2. Discuss the ways in which globalization transforms communities. Refer to both economic and cultural processes.
3. Climate change is an environmental problem. Discuss?
4. To what extent are maps an objective representation of the world?
5. To what extent do physical and imagined borders play a role in shaping group identities?
6. With reference to examples, identify ways in which migration is driven by economic, cultural and political processes.
7. To what extent is poverty an urban experience?
8. How is social media changing our understanding and experience of place and identity?
