

# Mobile Industries PLC

*... because mobile is our future*

## **Role Name: Sandwich Year Mobile App Developer**

### **Primary Contact**

Mrs Alicia Davies  
Mobile Industries PLC  
c/o Computer Science Department  
Aberystwyth University  
Penglais Campus  
Aberystwyth SY23 3DB

### **About The Job**

Mobile Industries PLC is looking for a junior mobile applications developer to join its growing team of programmers working to develop new user experiences on a growing array of phone and tablet based computers. Our client base includes newspapers, magazines, banks, online and brick-and-mortar shops.

Mobile Industries is looking for a candidate who will be able to learn quickly the tools and techniques required to be a successful application developer, and be able to pick up internal develop procedures.

Candidates should be able show that they can quickly assimilate complex problems and build a well-designed and scalable solution. The successful candidate will work in a team of 2-3 people and will be expected to contribute from day one.

### **Required Qualifications**

To be considered for this role:

- you must be studying for a degree in Computer Science, Software Engineering, or other relevant science or engineering degree;
- you should be on-track for a 2:1 or first class degree.

### **Required Experience**

The following list should give you an idea of the skill set we're looking for. Don't be alarmed if you don't feel your knowledge of these areas isn't as strong as you'd think. We will be offering training in these technologies, and our main concern is to find someone who works well within our team.

The skills we're looking for include:

- familiarity with mobile platforms (iOS, Android);
- solid grounding in fundamental programming techniques;
- experience with designing user interfaces in the mobile space;

- experience with agile development techniques;
- experience with social APIs (Facebook, Twitter, YouTube in particular) is desirable but not essential,

Familiarity with, or knowledge of, XCode, Java, HTML, JavaScript, OpenGL, and Objective C is desirable but not essential.

We're also keen to hear what additional experience you have that might be useful during your Sandwich Year with us.

## **Personal Qualities**

A strong team ethic is essential to our success. We're looking for people who have both individual brilliance and who can work well as part of a team.

The personal qualities we're looking for include the following:

- effective communicator – our client base is entirely English-speaking, any successful candidate will be required to communicate directly with our clients, provide status reports and be able to write clear and concise documentation;
- team player – you'll be expected to work as part of a close-knit team from day one;
- self-starter – you'll be expected to use your time to learn and develop new skills within strict deadlines.

## **Salary, Location, Benefits**

These positions are for a fixed term of 52 weeks, starting on 1 July 2020. They are based at our Head Office in Reading. The salary for these positions is £18,500 per annum and the working week is 37.5 hours.

You will receive 25 days holiday per year, plus public holidays. We offer a contributory company pension, private health care, free soft drinks, free fruit, and catered lunch every day.

## **How To Apply**

Please email your covering letter and CV to [cs-iy-admin@aber.ac.uk](mailto:cs-iy-admin@aber.ac.uk)  
Interviews will be conducted at Gregynog Hall in October.
