

## **Industrial Year Developer**

GloverSure Ltd. is looking for 2 (maybe 3) industrial year developers for 2010/11.

GloverSure Ltd. was founded in 2004 by a Aberystwyth graduate in software engineering. We are a successful business operating in the SMS, MMS and web industries providing a variety of bridging technologies and innovative solutions based in Welshpool, Mid Wales, just 20 minutes from Shrewsbury, and 70 mins from Aberystwyth.

We are a team of 9 and have over 300 clients from the likes of the NHS, First Buses and Trains, Welsh Rugby Union, many county councils and government agencies to local businesses and sole traders.

Desirable skills include:

- Good knowledge of using object orientated languages.
- Good understanding and use of PHP (but not essential)
- Experience of Java, Javascript, AJAX, CSS and XHTML would be useful.
- The ability to prioritise and work on several projects at a time
- Self motivated, but also when needed a team player.
- Interest in developing mobile apps (this is not essential but is a service we will be offering in the near future)

The job entails developing cutting-edge SMS and web based technologies and writing performance critical software. You will be responsible for developing and extending GloverSure's software portfolio, working in partnership with other members of the development team to produce tailored solutions to satisfy customers.

Not all of the desired skills are required and training will be given where required, so the ability to develop skills and learn new technologies is essential.

Quite often students misunderstand what their job would entail at GloverSure, you will be developing large web applications and not designing simple brochure websites as we have web designers who do this work.

You will be involved with all stages of the development cycle and will need to be able to work on your own as well as in a team. You will gain a great amount of experience and insight from working in a small/medium sized business.

Please submit your CV and Covering Letter direct by email to:

[jobs@gloversure.co.uk](mailto:jobs@gloversure.co.uk)

Mr. R. Glover-Davies

GloverSure Ltd, Severn Business Centre, Severn Farm Enterprise Park, Welshpool,  
Powys. SY21 7DF

**Please submit any examples of work you feel may demonstrate your capabilities from personal websites to any good examples of your coding skills.**

**Salary depends upon experience and academic performance.**
